Nature of our B.Ed course is "Teacher Training" programme. The aim of this programme is to developed/enhance teaching skills towards "quality teaching" so mentoring becomes considerably essential for trainees. The students in teachers' training colleges are required to study various pedagogy subjects. The subject teachers act as their mentors to train them and prepare them for meeting

professional needs. The concerned subject teachers groom college students as mentors to achieve knowledge of their own subjects. The trainees are supervised by their respective subject teachers during micro-teaching practice with peers. This teacher training course we have teacher internship programme for experiencing and developing real-life teaching skill and how to solve teaching-learning challenges without any burden, for that every internship school has a mentor who guides and assesses the trainees on their overall performance and additionally helps them to solve issues associated with the teaching - learning challenges. Apart from these, the students conduct practicum activities under the guidance of individual teachers who supervise them to conduct field-based activities.

The institution meticulously prepares for its internship program through several key steps. Firstly, students are actively involved in selecting schools for their internships, ensuring placements that match their interests and career aspirations. Secondly, orientations are conducted for both host school principals and teachers to familiarize them with the program's goals and requirements, ensuring their support and collaboration. Thirdly, students undergo thorough orientations to understand their roles, professional conduct, and

effective engagement with host school staff and students. Additionally, the institution defines the mentorship role of its teachers, who provide guidance and support throughout the internship. Assessment methods are carefully designed, including reflective journals and supervisor feedback, to evaluate student performance. Finally, students are exposed to diverse school settings, including urban, rural, public, and private schools, enriching their educational experiences and perspectives

2.4.11 - Institution adopts effective monitoring mechanisms during internship programme. Describe in not more than 100-200 words, the monitoring mechanisms adopted to ensure optimal impact of internship in schools with specific reference to the role of teacher educators, school principal, school teachers and peers.

In an effective internship program, various monitoring mechanisms ensure optimal impact. Teacher educators play a crucial role by providing guidance, feedback, and assessment of interns' progress. They observe interns' teaching sessions, offer constructive feedback, and facilitate reflective practices.

School principals oversee the overall implementation of the internship program. They ensure alignment with school goals, allocate resources, and support interns and teachers. They monitor interns' integration into school activities and their adherence to professional standards.

Peers contribute to the monitoring process by offering support and feedback. Collaborative environments encourage sharing of experiences, resources, and strategies, enhancing interns' learning and development.

2.6 - Evaluation Process

2.6.1 - Continuous Internal Evaluation (CIE) of student learning is in place in the institution Describe details of the Continuous Internal Evaluation in the institution highlighting its major components in not more than 100-200 words

The Continuous Internal Evaluation (CIE) system in our institution is designed to assess students' learning progress continuously throughout the academic year. It consists of various components such as regular class tests, assignments, quizzes, projects, and presentations.

Class tests are conducted periodically to evaluate understanding of course material, while assignments provide opportunities for students to apply concepts. Quizzes help reinforce learning and assess understanding of specific topics. Projects and presentations encourage deeper exploration of subjects and development of critical thinking skills.

Additionally, attendance and participation are often considered as part of CIE to encourage engagement in the learning process. Feedback mechanisms, including teacher-student interactions and peer evaluations, are integral to the CIE system to provide guidance for improvement.

Overall, the CIE system promotes active learning, continuous engagement, and comprehensive assessment of students' knowledge and skills.

2.6.3 - Mechanism for grievance redressal related to examination is operationally effective

The mechanism for grievances redressal related to examinations is crucial for ensuring fairness and transparency in the education system. When this mechanism is operationally effective, it means that students and stakeholders have a reliable avenue to address any concerns or issues they encounter during the examination process. This typically involves clear procedures for lodging complaints, prompt investigation of grievances, and fair resolutions. An effective mechanism instills confidence in the examination process, promotes accountability among examiners, and ultimately upholds the integrity of academic assessments. Continuous monitoring and improvements to this mechanism are essential to maintain its

effectiveness and address emerging challenges in examination administration.

2.6.4 - The institution adheres to academic calendar for the conduct of Internal Evaluation Describe the mechanism of adhering to academic calendar for the conduct of Internal Evaluation in the institution in not more than 100-200 words.

To adhere to the academic calendar for internal evaluations, the institution typically follows a structured process. First, at the beginning of each academic year, the institution sets up a detailed calendar outlining key dates for assessments, including deadlines for assignment submissions, exam dates, and result announcements. This calendar is widely circulated among students and faculty. Faculty design assessments in advance, aligning them with course objectives, and administering them on time. Contingency plans are in place for unforeseen circumstances. Regular monitoring ensures effective adherence to the calendar.

2.7 - Student Performance and Learning Outcomes

2.7.1 - The teaching learning process of the institution is aligned with the stated PLOs and CLOs. Describe the way in which institution ensures alignment of stated PLOs and CLOs with the teaching learning process in not more than 100 - 200 words.

To ensure alignment between stated Program Learning Outcomes (PLOs) and Course Learning Outcomes (CLOs) with the teaching-learning process, institutions typically employ several strategies by mapping them, using backward design, encouraging varied teaching methods, and implementing regular assessment and feedback mechanisms. This ensures that courses directly contribute to achieving program objectives, fostering purposeful teaching and continuous improvement.

2.7.3 - The progressive performance of students and attainment of professional and personal attributes in line with the PLOs and CLOs is monitored and used for further improvements

Monitoring the progressive performance of students and their attainment of professional and personal attributes aligned with Program Learning Outcomes (PLO) and Course Learning Outcomes (CLO) is essential for continuous improvement. By tracking student progress, educators can identify strengths and areas for development, tailor instruction to individual needs, and implement targeted interventions as necessary. Additionally, using this data for further improvement allows institutions to refine curriculum, teaching methodologies, and support services to better align with the overarching goals of the program. Ultimately, this cyclical process of monitoring and improvement enhances the overall quality of education and better prepares students for their professional endeavors.

2.7.5 - Performance of students on various assessment tasks reflects how far their initially identified learning needs are catered to. Describe with examples the extent to which the assessment task and the performance of students reflect their initially identified learning needs in not more than 100 -200 words.

Assessment tasks are essential in gauging how well students' learning needs are being met. For example, let's consider a student named Sarah who struggles with mathematical concepts. Initially, her learning needs might be identified as needing support with understanding fractions.

In a math assessment, one task might involve solving word problems involving fractions. Sarah's performance on this task would reflect how well her initial learning needs are being addressed. If she performs poorly, it could indicate that her needs aren't being adequately met. However, if Sarah demonstrates a strong understanding of fractions in this assessment, it suggests that the support she's received has been effective in addressing her learning needs.

Therefore, the alignment between the assessment task (solving fraction-based word problems) and Sarah's performance reflects the degree to which her initial learning needs are being catered to.
